Staff constantly check pupils' understanding. Staff skilfully adapt lessons to meet the needs of pupils. Staff make sure pupils get the most out of every lesson
- The teaching of reading is strong. Many pupils who join the school are still at the early stage of reading. These pupils learn phonics. Trained staff deliver the school's phonics programme very well. Pupils quickly become independent readers. Leaders support pupils to read widely. All staff contribute to a love of reading. There are small libraries in every classroom. The books in these libraries are themed to match the subject being taught in that classroom.

- There is a well-planned personal, social and health education (PSHE) programme. In PSHE lessons, pupils learn about themselves and others. Pupils learn how to keep themselves safe and healthy. Pupils follow a relationships and sex education programme that meets statutory guidance.
- Pupils are very well prepared for further education, training or employment. All pupils learn about different jobs. Older pupils follow an accredited course in employability. Pupils receive up-to-date careers guidance from an independent careers adviser.
- The proprietor's vision is that pupils will achieve life-changing outcomes. All staff share this vision. Staff have a very thorough understanding of what each pupil needs to be able to learn well. Pupils are well supported by education psychologists and specialist therapists
- Pupils quickly find that they feel safe and are able to tackle situations they previously would have found daunting. For example, pupils have started college courses and willingly speak to visitors about their work.
- Leaders have established extremely strong lines of communication between home and school. Parents and carers speak very highly of the school. One parent said: 'This is a wonderful school. Before this school, our child was not getting any education. Now our child is flourishing
- Pupils enjoy coming to school and their attendance is very high.

Oakwood Learning Centre offers a broad and truly bespoke curriculum allowing pupils to pursue both academic and vocational pathways allowing individuals to strive in their areas of strength. Oakwood learning centre offers over 36 nationally accredited courses from individual unit awards, specialised outdoor activity accreditation through to GCSE and beyond. Oakwood learning centre has close links with local colleges and offers students further educational experiences and training where applicable.

Oakwood Integrated Provision is committed to the following principles:

- To respect the value of all individual pupils and staff
- To provide the highest standards of care and education
- To ensure safety, security and opportunities for success for all

At Oakwood Learning Centre we believe in the concept of lifelong learning and the notion that learning should be a rewarding and enjoyable experience for everyone; it should be fun. Through our teaching we aim to equip children with the skills, knowledge and understanding necessary to be able to make informed choices about the important things in their lives. We believe that appropriate learning and teaching experiences help children to lead happy and rewarding lives.

The curriculum at Oakwood embraces all that is learned through school, whether in lessons or as part of informal learning within and beyond the school day. It includes not only the requirements of the National Curriculum but also the wide range of activities that the school provides in order to enrich the experience and learning of the children. What the children learn from the way they are treated and expected to behave is also part of the curriculum. The school has a clear focus on the personal development and wellbeing of each child, as well as on their academic progress.

At Oakwood Learning Centre, we aim to teach our students how to grow into positive, responsible people who can work and co-operate with others while developing their knowledge and skills, so that they achieve their full potential. Students at Oakwood access a wide curriculum tailored to each student's specific areas of need.

At Oakwood Learning Centre we provide an education that provides students with opportunities to explore and develop their own moral values and beliefs, spiritual awareness, high standards of personal behaviour, a positive caring attitude towards other people, an understanding of their social and cultural traditions and an appreciation of the diversity and richness of other cultures. We understand the key role this plays in allowing students to achieve and develop both academically and socially. These key concepts will be promoted throughout the curriculum and in all aspects of school life.

Oakwood Learning Centre enjoys utilising the benefits of innovative curriculums including the use of Virtual Reality and LEGO Education within our curriculum. This is to enable students to be active, creative and collaborative and to solve a range of issues and problems they are presented with. We utilise these educational ideas as tool to develop students understanding of the modern world around them whilst providing the safety and continuity of the Oakwood site and staff team. Learning takes place with students actively constructing artefacts in the learning environment but simultaneously constructing knowledge in their minds. Constructing with others and vocalising their ideas collaboratively extends this learning even further, allowing students to focus on not only what they learnt but how they have learnt throughout the process. This in conjunction with our academic and vocational offer of education allows each learner to be fully immersed in their own educational journeys.
