

Intent • Implementation • Impact

Intention (We aim to...)

Promote Academic Success

Deliver a broad curriculum individualised to our pupils
Provide support which encourages independence
Foster a 'Growth Mindset' towards learning

Be Confident in Community

Reduce barriers to learning and participation
Develop resilience, well being and a positive self perception
Support pupils to develop positive relationships

Create Aspirations for the Future

Inspire pupils to embrace new experiences
Expose pupils to future employment opportunities
Develop skills to be successful in future communities

Implementation (We do this by...)

Academic

Planning reviewing and adapting an engaging curriculum that provides opportunity for all pupils to learn and rehearse new skills and realise their potential.

Social

Utilising a wide range of opportunities to allow pupils to observe, practice and develop social skills. This will include modelling from all members of the school community, supported by clinical input. Opportunities for play and peer mentoring experiences will be embraced and allow pupils to learn from each other.

Community

Providing pupils with a range of trips, visits and experiences which allow them to access and understand their wider community. Enhancing our school community through regular family events and assemblies led by parents and members of the community.

Enrichment

Offering a range of activities which enrich our curriculum and provide pupils the opportunities to discover new interests and experiences. These will be planned as part of our weekly timetable, in response to pupil interests and successes, and celebrated through our Children's University Graduation.

Impact (We want our children to...)

Have Academic Success!

Think creatively, be curious, enjoy learning and achieve their potential.
Be literate in the modern world in reading, writing and access to technology.
Have interest in and knowledge about the world.
Be proud of their achievements.

Have Confidence in Community!

Be able to contribute positively to community.
Be able to accept and understand differences.
Have positive relationships.
Have the skills, confidence, and self belief, to interact with a range of audience, sharing opinions and respecting those of others.
Have greater understanding of themselves, their emotions and the impact of these on others.

Have Aspirations for the Future!

Not be limited by their previous experiences/challenges.
Be confident in having high aspirations of them-selves and their ability to work towards them.
Have an open mind to new people, new experiences, and new challenges.
